## Long-term employees at seele

Gersthofen, 23, January 2018. The technology leader in façade construction with headquarters in Gersthofen was founded in 1984 by master glazier Gerhard Seele and steelwork engineer Siegfried Gossner. Because of the realization of technically demanding façade constructions all over the world seele was growing continuously. Today, about 1,000 employees work at the seele's locations around the world.

Recently the executive management of seele GmbH, Nelli Diller and Andreas Hafner, honoured long-term employees for 10, 15, 20, 25 and 30 years of working at seele. One of the highlights is the long-term loyalty of Andrea Stoll, who started to work as a trainee in the design department of seele.

"Such an honour is always a special event. In this day and age it is very important to keep skilled employees at our company. That is why we have to say thank you to our staff, who is a big part of seele's success", said Nelli Diller, executive manager of seele GmbH.

In total 69 jubilarians of the seele group of companies were honoured. "Especially our engagement in apprenticeships and combined studies is the result of having qualified employees", so Andreas Hafner. "Besides exciting tasks, our internal and external training offers are the reason for staying with us for a long time".

press release

seele group

The seele group of companies, with headquarters in Gersthofen near Munich, is one of the world's top addresses for the design and construction of façades and complex building envelopes made from glass, steel, aluminium, membranes and other high-tech materials. The technology leader in façade construction was founded in 1984 by master glazier Gerhard Seele and steelwork engineer Siegfried Gossner.

Based on a profound understanding of design and materials, seele provides everything necessary for ambitious one-off designs true to the original ideas of engineers and architects. The seele group offers its building sector and industrial customers a complete package of services, ranging from R&D, individual advice and joint conceptual design right up to the planning, detailed design and construction of their projects. seele's own production plants for technologically challenging designs and the group's own erection crews on site provide a guarantee of the very highest quality "made by seele".

About 1,000 employees work at the seele group's 12 locations around the world, together generating an annual turnover of more than €200 million.
